SUMMARY

Dedicated Front-End Developer with over seven years of experience in building responsive, high-performance web applications using Vue.js, Angular, and WordPress. Recently relocated to Bologna, Italy, and eager to contribute expertise in UI/UX implementation, API integration, and cross-browser optimization to innovative local projects. Proficient in translating Figma designs into functional code, with a proven track record of enhancing user experiences through advanced animations and performance tuning.

PROFESSIONAL EXPERIENCE

Elyos digital | Front-End Developer

April 2022 – December 2024 | January 2025 - Present (remote)

Front-End Developer

- Transformed Figma and Adobe XD mockups into dynamic web solutions using Drupal CMS and Vue.js, ensuring W3C compliance and cross-browser compatibility.
- Developed engaging animations with JavaScript, CSS, jQuery, and GSAP, optimizing load times for seamless user experiences
- Optimized web performance for fast loading times and a smooth user experience.
- Developed graphical components in Vue.js, focusing on routing, templating, and modular development.
- Collaborated with backend teams to integrate APIs and ensure data consistency.
- Consumed data via REST API using Axios.
- Used Git for version control and collaborative development.

Technologies Used :

Html, Css, Bootstrap, jQuery, GSAP, Javascript ES6, Git, Vue js, Drupal

eNano-Tech | Front-End Developer / WordPress Developer

August 2019 – April 2022

Front-End Developer

- Developed visual interfaces using CSS methodologies (LESS, SCSS, Bootstrap, JavaScript).

- Integrated designs from Figma and Adobe XD into WordPress, PrestaShop, and Magento.
- Ensured cross-browser compatibility and adhered to W3C standards.
- Utilized CSS preprocessors (scss, LESS) for maintainable and modular code.
- Analyzed user needs to define features and technical specifications.
- Used version control systems like Git to manage source code and automate deployments.
- Implemented graphical components using Angular 12.

WordPress Developer

- Created and customized WordPress themes according to design requirements.
- Modified and customized existing WordPress themes to meet specific client needs.
- Designed, developed, and maintained custom WordPress plugins.
- Implemented SEO and accessibility best practices for better ranking and optimal accessibility.
- Optimized WordPress site performance (code optimization, image compression, and caching techniques).
- Created custom widgets for builders (Elementor, Visual Composer).
- Developed custom post types, taxonomies, and custom fields (meta fields).
- Managed tracking codes via Google Tag Manager and Google Analytics.
- Implemented security measures to protect WordPress sites from common vulnerabilities.
- Converted WordPress sites to AMP versions for enhanced performance.
- Deployed websites.

Technologies Used:

Html, Css, Bootstrap, Javascript, Typescript, Php, angular, Wordpress, Magento, Prestashop , Docker , Git , mysql

Carthage solutions | WordPress Developer

June 2017 – July 2019

- Designed and developed WordPress websites using WPBakery, Elementor, and Divi Builder).
- Configured and customized WordPress themes, plugins, and page builders.
- Conducted testing and validation to ensure quality deliverables.
- Integrated external APIs (Google Maps, Stripe, etc.) into WordPress and WooCommerce websites.
- Managed data migration between hosting providers: file backups, database transfers, DNS configuration, MX entries, and redirections.
- Optimized websites for SEO.
- Conducted advanced SEO audits and optimization using tools like Google Search Console and PageSpeed Insights.
- Maintained existing websites, updated the WordPress core, and managed plugin updates.

Technologies Used:

Html, Css, Bootstrap, Javascript, Php, Wordpress, Prestashop ,Git , mysql
